W. E. BAKER SOME PHOTOGRAPHER

Notice to Farmers

THE War Industries Board at Washington. fully realizeing that food production and conservation must not be curtailed by lack of proper buildings on the farm, has recently ruled that-

No permit will be required for new construction for farm purposes involving in the aggregate a cost not exceeding \$1000 nor for repairs or extensions to existing buildings involving in the aggregate a cost not exceeding \$2,500.

New construction, costing more than \$1,000 and essential to efficient farm management or increased farm production, may proceed by securing a permit from the proper state authority.

The Government requests that skilled labor be used only where absolutely necessary---that whenever possible the work be done by the farmer and his own help---and that no new work be done except where absolutely needed.

We have pledged our support to the Government in the observance of the above ruling. But we want to urge upon every farmer that the first consideration is increased food production and conservation.

If a new building is needed to store grain or house hogs or stock so that food and feed will not be wasted, that building is a legitimate part of the war program.

We have a complete stock of lumber on hand in our yards and immediately available for such purposes. Our farm building plans make building sure and eco-

Home Lumber & Fuel Co.

Do You Think There is No Competition?

If anyone thinks there is no competition amongst the big packers he ought to go through a day's work with Swift & Company.

Let him begin at the pens when the live stock comes in; let him try to buy a nice bunch of fat steers quietly and at his own price without somebody's bidding against him.

Let him realize the scrupulous care taken at the plant that not one thing is lost or wasted in order that costs may be held to a minimum.

Let him go up into the office where market reports are coming in .- and reports of what other concerns are doing.

Let him watch the director of the Swift Refrigerator fleet, maneuvering it over the face of the country like a fleet of battleships at sea.

Let him take a trip with a Swift & Company salesman and try to sell a few orders of ment.

Let him stay at a branch house for an hour or two and see the retail theat dealers drive their bargains to the last penny as they shop around among the packers' branch houses, the wholesale dealers, and the local packing plants.

And then, when the day is over, let him have half an hour in the accounting department, where he can see for himself on what small profits the business is done. (Less than 4 cents on each dollar of sales.)

If he still thinks there is no competition in the meat business it will be because he wants to think so.

Swift & Company, U. S. A.

MACCABEES FAVOR SUFFRAGE FOR WOMEN.

"Women are now being called to the aid of the Government in the prosecution of the war. Without their ald and patriotism this war could not be conducted. Women of our Association have by their business ability and neknowledged success in the business world proved their ability to think and act in matters of public importance. As an insurance association our business interests are affected. Legislation and amendments to state constitutions are being annually proposed upon which for our soif protection we ought to have a direct voice." -Bina M West, Supreme Commander of the Woman's Benefit Association of the Maccabees,

SUPPORTS SUFFRAGE

Mr. S. Black of Riverdale Saturday evening,
Miss Hazel Pricited spent Sunday with her parents near Alma.

Among the vital questions discussed at the recent convention of the Michigan Federation of Labor was that of the pending Woman Suffrage Amendment. The thought of the delegates was expressed by the following resolution:

Mr. S. Black of Riverdale Saturday evening,
Miss Hazel Pricited spent Sunday with the parents near Alma.

Proper food.

There is no end to the discussion of the laid in good alumnment and to proper grade.

(1) Corrections will be arranged for at day of drain tale, and be placed in drain to satisfaction of land owners.

(8) All acutes to be turned on easy curves commencing two rolls back from annie stake.

(9) All joints to be made tight and closes about calories, process, and food values generally. In the meantime the propule seem to be atting what they united. From station 0 to station 4
